Making Good Sound Great™

MORE POWER. MORE CONTROL.
DSP MATRIX AMPLIFIERS

The Director® M Series

HIGH POWER AMPLIFIED AUDIO MATRIX
DIGITAL SIGNAL PROCESSING WITH FULL IP CONTROL
8, 12 OR 16 CHANNELS IN A SLIM CHASSIS

SIGNAL MATRIXING | VOLUME CONTROL | ZONE EQ WITH MEMORIES | USER PROFILES
100 WATTS PER CHANNEL AT 8 OHMS | 200 WATTS PER CHANNEL @ 4 OHMS
BUILT-IN SPEAKER PROFILES | HIGH AND LOW PASS FILTERING | LOCAL INPUTS WITH PASS THROUGH
DUAL DIGITAL BUS INPUTS & OUTPUTS | NETWORK CONTROL | SLIM 2U AND 1U (M4800) CHASSIS

HOME AUDIO

HIGH POWER MULTI-ZONE NETWORK DSP MATRIX AMPLIFIERS

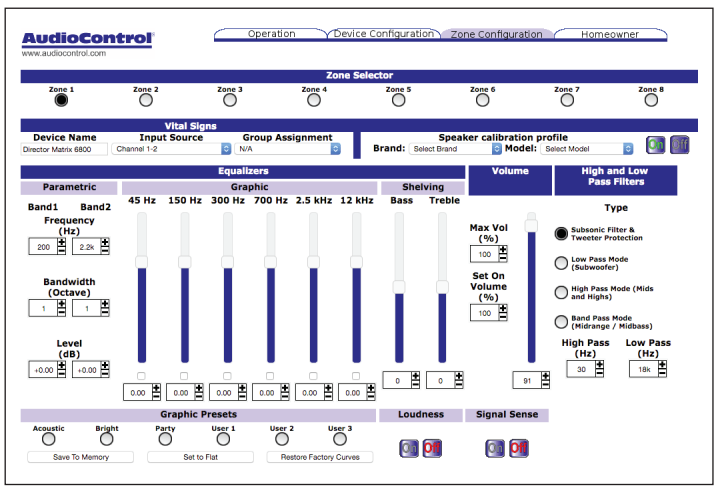

AudioControl's The Director® M Series are compact (2U and 1U) multi-zone matrixing amplifiers with DSP processing, including EQ, delay, crossover, volume functions and built-in speaker profiles, all controllable via network commands. These high performance amplifiers deliver an impressive 100 watts per channel and are stable into 4 ohms. With digital bus inputs and local zone inputs, the M Series can easily operate as high performance multi-channel amplifiers and amplified audio matrixes.

- High Powered Amplified Audio Matrix
- Signal Matrixing with Volume Control
- DSP with Crossover and Equalization
- Built-in Speaker Profiles
- 100 W @ 8 Ohms; 200 W @ 4 Ohms
- Bridgeable to 400 Watts
- Individual Zone and Group Volume Control
- Digital Bus and Local Inputs with Pass Through
- Remote Access for Setup, Control, Monitoring
- Slim 2U and 1U (M4800) Chassis
